An open communication between us will definitely strengthen the learning and development of each child in our care. We believe that shared responsibility between parents and school is necessary to foster students' success in school which can significantly impact each student's long-term success.

The teachers of D.A.V POLICE PUBLIC SCHOOL have been working diligently in creating a comprehensive online infrastructure for the effective learning of the students. To provide our learners with quality education, we are employing a variety of digital tools in a coherent fashion, ensuring students' online safety and privacy. We are able to provide our learners with all the core classes that are mandatory in the CBSE curriculum and a number of co-curricular activities as a part of the Whole Education.

An array of short courses offered to the students across all programmes has proved to be a great success. It provided a learning experience that empowered students with the skills to deal with change to make them problem solvers and critical thinkers. It has the ability to open up a plethora of career options for the students who have participated actively and you can see the glimpses in the below programmewise sections.
