FROM THE PEN OF THE HEAD OF THE SCHOOL

Dear Readers,

"Education is shared commitment between dedicated teachers, motivated students and enthusiastic parents with high expectations." - Bob Beauprez

As I start to pen my thoughts, a lot comes to my mind which I feel privileged to share with you all. At the outset, I express my gratitude to the parents who have put their faith in us to educate their children. This brings with it tremendous responsibilities and I assure you that we are doing our best to live up to your trust in us.

We are on the threshold of a new era. A new world of opportunities beckons us. As schools have reopened after months, we are focusing to inculcate the previous habits of a regular school student. My team is burning midnight oil to shape the students with strong academics, writing and communication skills. The upcoming months will be more challenging as we are going to lay emphasis on Academics including creativity, innovation, Olympiads and other capacity building programmes for our learners.

Learning is not a process limited to schools and colleges only, nor does it end with the conclusion of one's school career. It is indeed a lifelong process. The school is oriented to the formation of all the children interested in our care and the adaptation of various methods suiting the dynamics of changing world in order to achieve common goals and objectives. It is further characterised by shared vision, responsibility and above all, our love and faith in God in order to achieve these goals.

As a leader of the DAVPPS, I'm trying to fulfil all the heels of my duties towards my students and their parents. To end my thoughts, I am very thankful to my staff who supported me in every step to bring DAVPPS to the path of progress. We all will continue to serve this institution with same passion and commitment.

"All progress takes place outside the comfort zone." --Michael John Bobak

Thank You
